The U. S. Government in its "Pure Food Law" does not "indorse" or "guarantee" any preparation, as some manufacturers in their advertisements would make it appear. In the case of medicines the law provides that certain drugs shall be mentioned on the labels, if they are ingredients of the preparations. Ely's Cream Balm, the well-known family remedy for cold in the head, hay fever and nasal catarrh, doesn't contain a single injurious drug, so the makers have simply to print the fact that it complies fully with all the requirements of the law.

"BROTHER JIM"

On Trial at Hawesville. Every-
body His Friend. Assets of
Parrish Bank Not Worth
Ten Cents on \$1.

News from Hawesville says during James H. Parrish's trial he has completely won the hearts of the Hawesville people. Everybody calls him "Brother Jim." He attends church and nearly every night he has a song service. If he stays much longer, it is said, he will be building churches.

Report of trial is as follows:

Hawesville, Ky., Dec. 14.—The trial of James H. Parrish was resumed here this morning at 10 o'clock on the arrival of attorneys and many witnesses from Owensboro. C. C. Watkins, cashier of the National Deposit Bank, was on the stand practically all day. He stated that \$890,000 of the alleged assets of the Parrish bank were not worth more than ten cents on the dollar, that when the Owensboro Clearing House Association was formed Mr. Parrish refused to join because he would have to submit his bank to examination by the association, and he knew this would result in his rejection as he was taking paper that the other banks considered not good.

On examination he admitted that he had accepted about \$50,000 of the same kind of paper, that caused the Parrish crash. "Yes, but I got out," said Mr. Watkins, "and left me in," was the quick and first interruption of the trial by the defendant, Parrish. The evidence of Mr. Watkins showed that several bankers besides Mr. Parrish lost heavily on much the same kind of paper that wrecked Parrish, Louisville Times.—

SOCIETY NOTES

Miss Gensie Wills made her little bow into society Saturday afternoon at a beautiful party given in honor of her 10th birthday at the home of Judge and Mrs. Wills. Little Miss Elizabeth Stites Sippel, of Louisville, assisted in receiving the merry company of friends. Soon after their arrival they were invited to the dining room, which was decorated like the parlor in green plants, and were served refreshments. The table where the smallest guests were seated was most attractive with a large birthday cake on which were ten lighted candles. The favored guest received twenty-two lovely presents from the following, who were present: Louise and Curtis Weatherholt, Mary and Addie McGavock, Jane Lightfoot, Elizabeth Skillman, Eloise Nolte, Jane Lamar Sawyer, Cecil Jolly, Lillian Polk, Virginia Harris, James Skillman, Maud Beavin, Cissell and Henry May Simon, Mary Benton, Madye Chaplin, Louise and J. Mr. and Mrs. N. Neilsen entertained most delightfully a hunting party at Tar Springs last week before their departure for Chicago. Those invited were: Dr. Lightfoot, Chas. Skillman, Byrns Severs, Rev. Currie, Fred Fraiser, Capt. Rowland, Marion Weatherholt and Will Pate.

Beware Of Outlets For Catarrh That Contain Mercury,
as mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous membrane. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

OFFICE OF

THE OLD ORIGINAL SANTA-CLAUS

Kalamazoo, Mich., Dec. 7, A. D. 1908.

Mr. S. J. Brown, Prop.,
Home Bakery and Confectionary,
Cloverport, Ky.,

Dear Sir:-

I understand that you have opened up a new place of business in Julian Brown's old stand. I remember the place very well as I had such a tight scrouge getting down the small flues last Xmas. Now what I want to say is, I learn that you are making the finest line of pure hand made candies that was ever put before the public, and as I have had so much trouble with my little friends who have eaten my goods, these many long years of trouble and experience have taught me a great lesson in the way of pure candy.

So I have decided to use nothing but the purest and best, and to do this I have decided to make your place my headquarters and take orders from the mothers and fathers of the good little boys and girls. Also for the BIG BOY for his GIRL. You must prepare a window for me and have as many to come in each day as you can and give me their order so we can avoid the rush and everybody get what they want.

I will be there on the Cannon Ball December 10th, and as soon as I get my breakfast I will be at your place and will stay with you Thursday, Friday and Saturday, 10th, 11th, and 12th, then I have to leave you until the 17th. I will be back and stay with you the 17th, 18th, 19th, 20th, 21st, 22nd, 23rd and 24th. Don't forget the dates.

Yours truly,

SANTA CLAUS.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; vigor, beauty and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy, The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake but remember the name Swamp-Root. Dr. Kilmer's Swamp-Root and the address, Binghamton, N. Y., upon every bottle.

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong And Healthy.

All the blood of the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys. J. J. J. ever, living in Cloverport, Ky., says: "I have kept Doan's Kidney Pills constantly in the house for over ten years and have never found a remedy that would equal them. Three years ago my back was so lame and sore that I was scarcely able to straighten after assuming a stooped position. Whenever I contracted the slightest cold it was sure to settle on my kidneys and aggravate my suffering. A few doses of Doan's Kidney Pills have never failed to bring me prompt relief, and my wife has also used them with excellent results. I procured Doan's Kidney Pills at Fisher's drug store, and it gives me great pleasure to recommend them to other persons afflicted with kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

OFFICIAL PROCEEDINGS

Of Breckenridge County Court Regular Term, November 23, 1908.

As directed by Section No. 4115 of the Kentucky Statutes, it is hereby ordered that Calvin Hendrick, John Jennings, Jesse H. Miller, Taylor Dowell and Alonzo C. Glascock be and they are hereby appointed a Board of Supervisors in and for Breckenridge County, Kentucky, for the year 1909, and the above named persons shall constitute a Board of Supervisors of tax for the said year in the aforesaid County and State. This Court suggests that this Board of Supervisors on the first day of their session cause subpoenas to be issued for the members of the old Board, each to appear on a set day or all together, in their dissent, the object being to right any previous unintentional injustices or to procure any information concerning any matter in which the Board is interested.

A great number of suits having been filed by the State of Kentucky against persons in Breckenridge County for taxes on property which they failed to list, and a report being current that many others will be or should be filed, and it appearing from records and reports that there is much personal property in the County which is wrongfully escaping taxation, and the burden of taxation really being on the land owners, especially the smaller ones; realizing that these suits are an expense and inconvenience to the individuals and a source of embarrassment to our banks and in every way unnecessary, if every body would be fair in their statements to the Assessor, I recommend that the Board of Supervisors exercise all possible care and diligence in their deliberations and investigation and so equalize and adjust matters that future actions by the State will be avoided and the burden of taxation equitably distributed. Any person or persons wrongfully assessed, may and must appear before the County Court, at once, and the matter can be corrected, these matters should not come before the Fiscal Court as the County Court has jurisdiction. This Board is hereby directed to meet at the Court House in Hardinsburg, on the first Monday in January 1909, the penalty provided for a failure of prompt attendance in obedience to this order is a fine of twenty-five dollars.

The County Clerk of Breckenridge County aforesaid is hereby ordered to make six copies of this order and promptly deliver the same to the Sheriff of Breckenridge County.

The said Sheriff will deliver a copy hereof to each of said persons above named and make the return of his acts on the sixth copy to the Clerk of the said County Court.

In addition to above copies, Clerk will deliver, at once, a copy of this order to each of the County papers for publication.

A DREADFUL WEAPON.

The Slashing Sharks' Teeth Club of the Polynesians.

Clubs were the weapons of primitive and savage men. And ancient specimens from Mexico are heavy sticks grooved along the side for the insertion of blades of boddian—that is, volcanic glass. The stone club is a flat piece of wood, curving and widening away from the grip and terminating in a spherical head, which in modern times carries a long spike, while the blades of several butcher knives are commonly inserted along the margin. The national museum of the United States possesses a great variety of these shocking weapons, designed, as the frontiersmen say, to "knock down the white man and then to brain him and cut him into mince meat." The Kingsmill islands were once very famous for making dreadful slashing weapons by securing rows of sharks' teeth along a haft of wood.

These weapons vary from a few inches to sixteen feet in length, and it has been said that in all the range of weapons devised by mankind there is nothing more blood curdling or belated. They show how the sword may have been evolved from the club even by tribes unacquainted with the use of metals. African weapons, designed as exceedingly complicated owing to the acquaintance of the natives with iron. The standard club is converted into a sort of tomahawk by the addition of blades or into a primitive spear by the addition of a sharp spike. The plain clubs in the African area are used chiefly for throwing.

The small knobbed clubs, or "berries," such as are found among the Kaffirs and other African tribes, are generally used as missiles. Whereas the club proper, or "korrora," is still being improved upon in boomerangs, bows and arrows, crossbows and firearms.

VERY FINE.

This Simple Home-Made Treatment Will Overcome Rheumatism.

Few people here know that you can cure that dread American disease, Rheumatism, with just common, everyday drugs found in any drug store. The prescription is so simple that any one can prepare it at home at small cost. It is made up as follows: Get from the good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.

Rheumatism, as every one knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to properly filter the waste from the blood of the uric acid and other matter, which, if not eradicated, either in the urine or through the skin pores, remains in the blood, decomposes and forms about the joints and muscles, causing untold suffering and deformity of rheumatism.

This prescription is said to be a splendid healing, cleansing and invigorating tonic to the kidneys, and gives almost immediate relief in all forms of bladder and urinary troubles and backache.

What She Inherited.
"Of course I can do manuevering just as well with my left hand" as with the right handed manueverist—"better, if anything. You don't know the difference if you've been born that way, if you have inherited it."

"Didn't know it was a matter of inheritance? Why, certainly it is. No, left handedness, not manuevering. My father, gra—father and grand—father were all left handed, and so were ten cousins of mine."—Exchange.

FROM LEFT TO RIGHT.

Is the Habit a Legacy From the Old Sun Worshipers?

The halfback, about to be tackled, stopped, then darted in a long curve toward the right. He was soon downed.

"The other side knew he would turn from left to right," said a veteran. "We all turn from left to right. To turn from right to left seems wrong, seems like reversing. We wind a watch from left to right, we turn a screw so, and so we write, and so we read."

"It all comes down to us from prehistoric times, from the sun worshipers. The sun moves from left to right, and its worshipers believed that all human actions must proceed accordingly. Well, they still do so."

"Churning is done as the sun moves, and there's a sun-worshiper that one re-

verse turn of the handle will spoil the butter.

"Cooks stir batter from left to right. A reversal, they say, would make the batter coarse and heavy."

"Stunt your eyes and turn (three). Don't you naturally instinctively turn from left to right?"

"Whalers put back again if the ship's first movement at the beginning of the voyage is not from left to right."

"In a subconscious way, you see, sun worship is still the religion of man."—Exchange.

THE CANNON ROARED.

How an Ovation by a Youthful Demosthenes Was Spoiled.

While campaigning in his home state Speaker Cannon was once inveigled into visiting the public schools of a town where he was billed to speak.

In one of the lower grades an ambitious teacher called upon a youthful Demosthenes to entertain the distinguished visitor with an exhibition of amateur oratory. The selection attempted was Byron's "Battle of Waterloo," and just as the boy reached the end of the first paragraph Speaker Cannon suddenly gave vent to a violent sneeze.

"But hush, hark," declaimed the youngster—"a deep sound strikes like a rising knell! Did ye hear it?"

The visitors smiled, and a moment later the second sneeze—which the speaker was vainly trying to hold back—came with increased violence.

"But hark," (dawled the boy)—"that heavy sound breaks in once more. And nearer, clearer, deadlier than before! Arm! Arm! It is the cannon's opening roar!"

This was too much, and the laugh that broke from the party swelled to a roar when Uncle Joe chuckled: "Put

up your weapons, children. I won't shoot any more."—Success Magazine.

The Division of Time.

The division of time into hours was practiced among the Babylonians from remote antiquity, but it was Hipparchus, the philosopher, who introduced the Babylonian hour into Europe. The sexagesimal system of notation was chosen by that ancient people because there is no number having so many divisions as sixty. The Babylonians divided the daily journey of the sun, the ruler of the day, into twenty-four parasangs. Each parasang, or hour, was subdivided into sixty minutes, and that again into sixty seconds. They compared the progress made by the sun during one hour at the time of the equinox to the progress made by a good walker in the same period of time, both covering one parasang, and the course of the sun during the full

equinoctial day was fixed at twenty-four parasangs.

Kissing the Hands.

The practice of kissing the hands was instituted by the early Roman rulers as a mark of subjection as much as of respect, and under the first Caesars the custom was kept up, but only for a time. These worthies conceived the idea that the proper homage due to their exalted station called for less familiar modes of obeisance, so the privilege of kissing the emperor's hand was reserved as a special mark of condescension or distinction for officers of high rank. Roman fathers considered the practice of kissing of so delicate a nature that they never kissed their wives in the presence of their daughters.

As money increases the love of it increases.—German proverb.

His Glorious Victory.
The commanding officer had surprised the young lieutenant and his daughter trying to occupy the same chair.

The lieutenant sprang to his feet and saluted.
"Sir," he said, "I have the honor to report an engagement at close quarters in which I have been entirely victorious. It now merely remains for you to give your sanction to the terms of surrender."—London Scrap.

Influence of Pluck.
The blindest, the most purely instinctive, effort of mere pluck has a lifting power and deserves our thankful admiration. Every degree and every form of courage tends to raise the whole tone of life within the range of its influence in proportion to the amount and the quality of the endurance exercised.—Hilbert Journal.
